WHAT DO YOU GET FROM ACSASS'S

Viha ?
Virtually Integrated HumAnoid

Instead of adding pricy AI licenses or per-use fees, We @ ACSASS is focused on offering AI functionality as an inherent part of our cohesive software ecosystem. VIHA is there everywhere!!!

ACSASS

We help enterprises unlock the real value of a Virtual Assistance - through scalable architectures and automation that accelerate innovation and deliver measurable results. AI isn't just a tool at ACSASS. It's the foundation of how we design, build, and scale digital systems that think, adapt, and perform

Our shared data model, owned and managed tech stack, and broad application portfolio are our greatest assets in building a stable, flexible AI platform

**THIS MAKES ACSASS'S APPROACH
TO AI UNIQUE**

HOW CAN

EMPOWER YOUR BUSINESS?

Viha makes your work life simple. VIHA adapts to your changing business environment by automating tasks, enhances customer experiences, and accelerate your digital transformation, giving your business a competitive edge.

From advanced automation to simplified task management , VIHA can work in wide range of capabilities to streamline your operations.

VIHA's approach is with a platform mindset - blending consulting, productisation, and implementation to support real-time, intelligent decision-making across your enterprise.

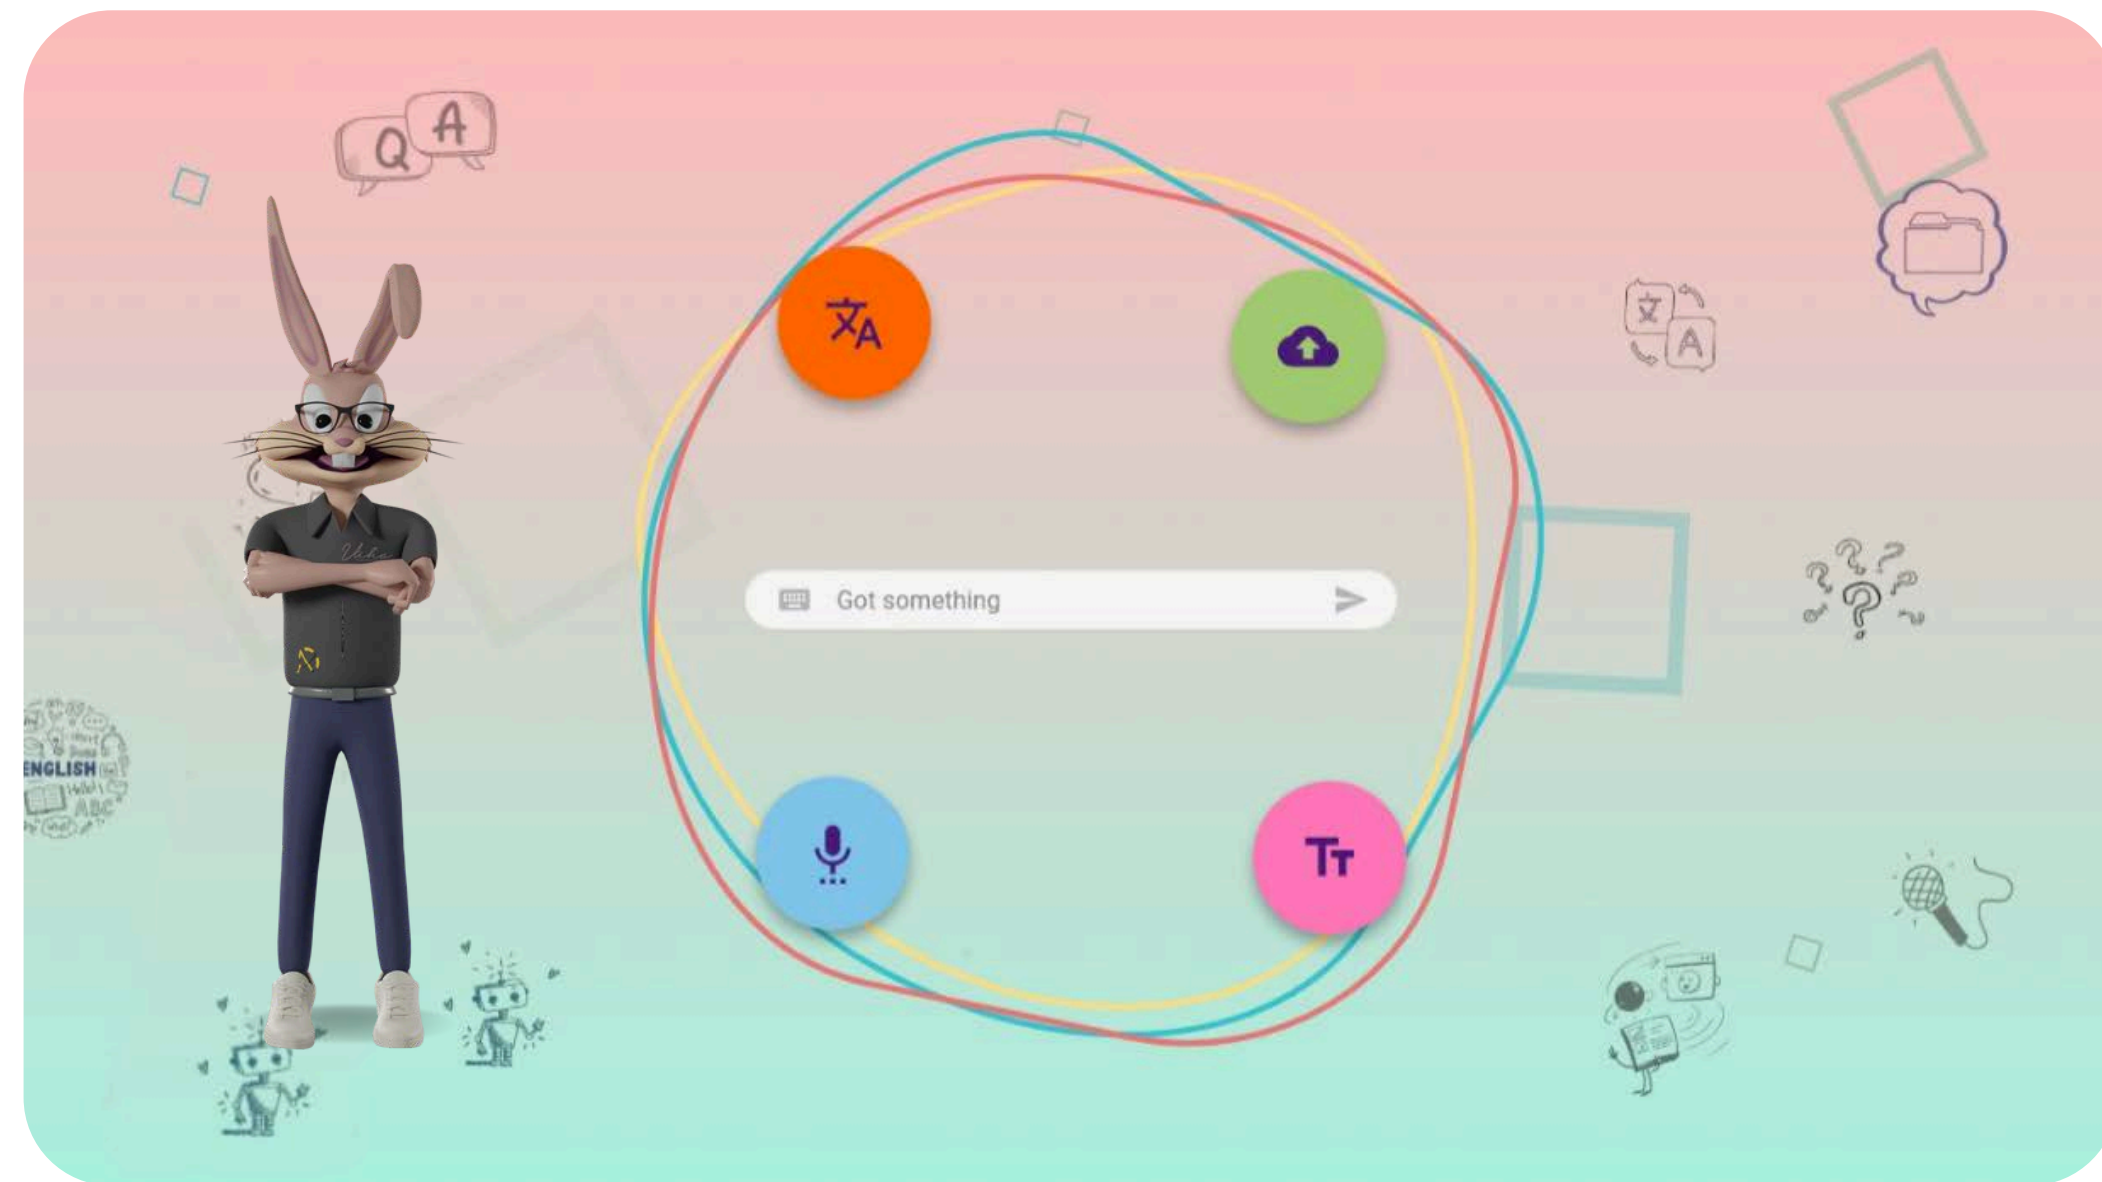

Move from experimentation to enterprise-grade AI

VIHA IS AVAILABLE IN MULTIPLE VERSIONS

Viha
Virtually Integrated HumAnoid

WEB

- This is a **creative super hub** - You can upload, analyze and organize in one place.

COMPUTER LESS ARCHITECTURE (CLA)

CLA (Computer Less Architecture)

CLA is a Voice Assistant, which you can have at your Space

CLA is the hardware version of VIHA

CLA helps manage all employee projects in one place and sends helpful reminders to finish tasks on time.

CLA helps easily check employee tasks, today's weather, or tomorrow's meetings and get all the details right away.

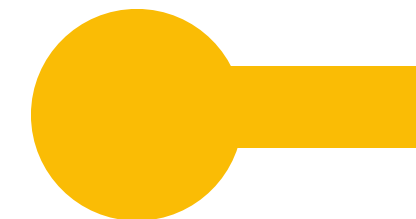

CLA keeps track of all employee leaves and automatically adjusts their pay when leaves are recorded.

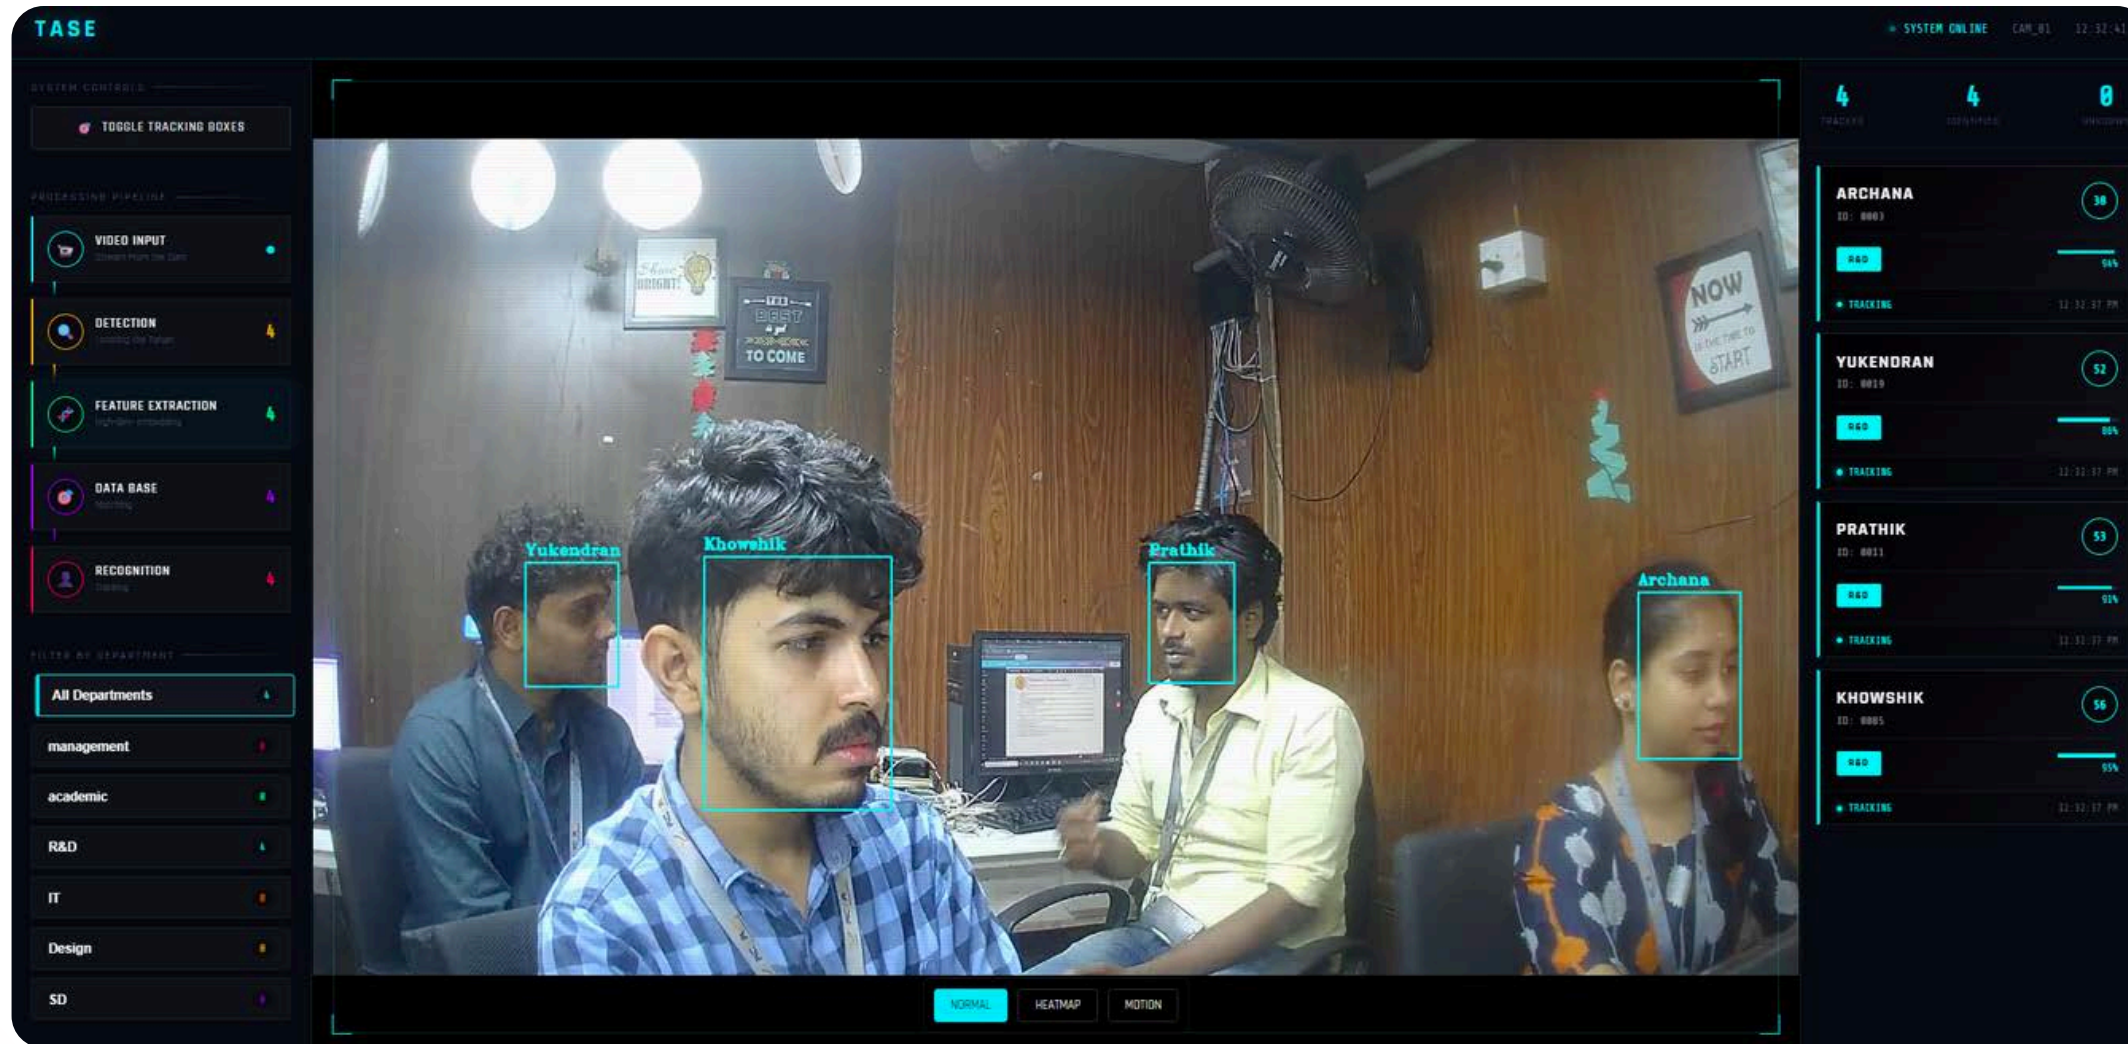

CLA automatically creates and personalizes offer letters after the probation period to make onboarding faster and easier.

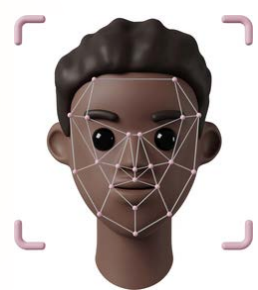

Just Talk! CLA will Take care!

TASE (The All Seeing Eye)

To improve visual classification and tracking efficiency, the system implements department-based color zoning. Each detected individual is enclosed within a **uniquely color-coded bounding box** corresponding to their department (e.g., Yellow – IT Admin, Blue – Software Developers), ensuring quick differentiation and operational clarity.

It **automatically detects** people entering or moving within organizational premises and also the department each individual belong to.

Tracks individuals across departments, floors, or designated areas without manual supervision.

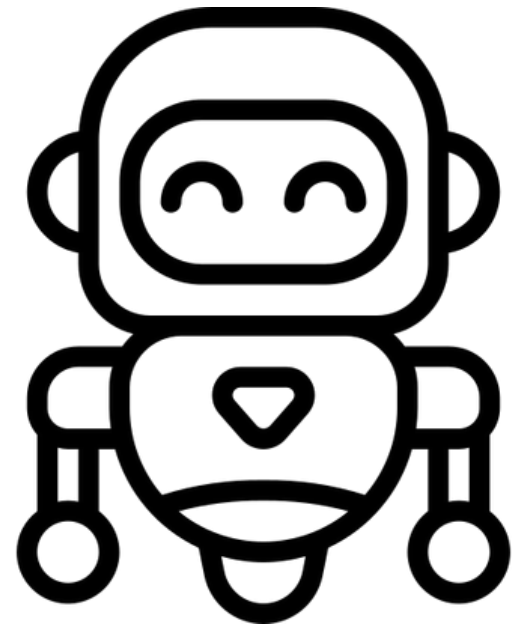

It detects and reveals **timestamps** of last seen appearance.

THE ALL SEEING EYE (TASE)

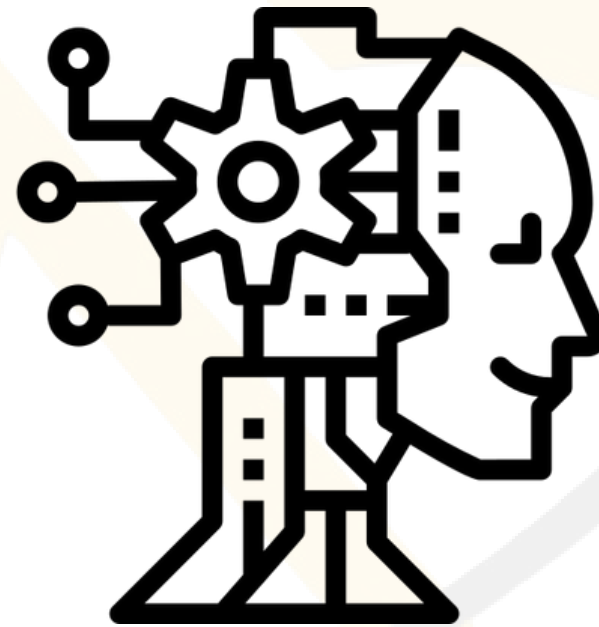

INDUSTRY 6.0

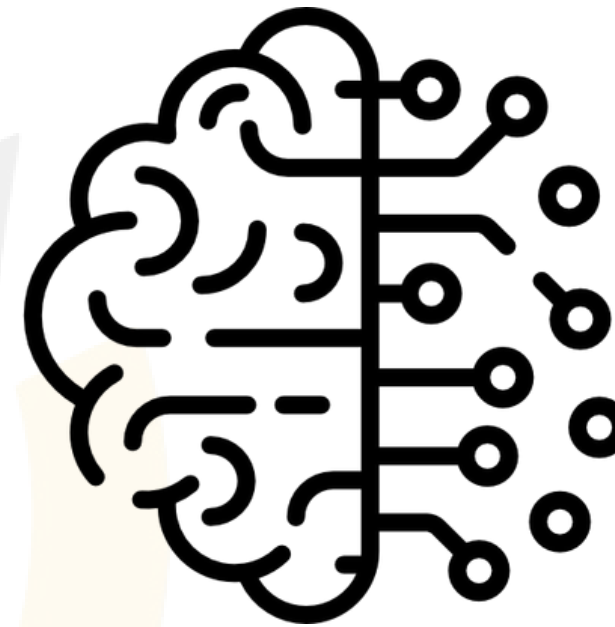

Artificial Narrow Intelligence (ANI)

Designed To Perform Specific tasks

Artificial General Intelligence (AGI)

Can behave in a human-like way across all task

Artificial Super Intelligence (ASI)

Smarter than human the stuff of Sci-fi

Team **KLSNSS**
